## Swivel Stool

Designer: Alexander Seifried, 2015

Our height-adjustable swivel stool: a seating object regularly met in doctor's surgeries, be that at the reception, in the treatment room or as a visitor's chair in the office. A stool for all occasions when you only sit temporarily and not always in the same position.

| Swivel Stool   | 1-layer                   | 2-layered                 | Oak  |
